CONCERT

raffinata sinergia di opposti armoniosi

CONCERT si ispira alle scacchiere ed alle composizioni geometriche in bianco e nero tipiche delle pavimentazioni delle più altolocate case olandesi del 1600.

Jan Vermeer è stato l'artista che più a saputo valorizzare questi ambienti ritraendo nei suoi dipinti scene di vita quotidiana, tutti accumulati dalle pavimentazioni in bianco marmoreo di Carrara ed il tipico nero delle fiamminghe pietre blustone. Fra queste opere troviamo The Concert, pregevole dipinto a cui facciamo riferimento con questa collezione sviluppando un progetto di formati modulari, mosaici e pezzi speciali per arredare ambienti di tendenza, rievocando un periodo di sfarzo culturale ed architettonico che vedeva nel triangolo formato da Olanda, New Amsterdam (l'attuale New York) e Gran Bretagna (re Guglielmo III d'Inghilterra era olandese) la sua massima espressione.

LO SAPEVI CHE...

Il dipinto, acquistato da Isabella Stewart Gardner per la sua collezione privata, è stato rubato, insieme ad altre opere d'arte, nel marzo 1990 ed è considerato il più prezioso dipinto tra quelli attualmente dispersi, con un valore stimato di oltre 200 milioni di dollari.

L'FBI è riuscito a rintracciare alcuni movimenti della proprietà rubata, ma finora i tentativi di recuperare il lavoro si sono rivelati infruttuosi.

La casa della Gardner, che è diventata un' importante museo di Boston, secondo il testamento diede disposizioni per lasciare tutto invariato, mostrando ancora oggi, nelle stanze dei dipinti rubati, le sole cornici vuote.

The Concert - Jan Vermeer - (c. 1664)

SHAPED
TECHNOLOGY

CONCERT is inspired by the chessboards and geometric black and white compositions typical of the floors of the highest Dutch houses of the 1600s. Jan Vermeer was the artist who has been able to enhance these environments, portraying in his paintings scenes of everyday life, all of them sharing the Carrara marble white flooring and the typical black of the Flemish blustones. Among these works we find The Concert, a valuable painting to which we refer with this collection developing a project of modular formats, mosaics and special pieces to furnish classic sophisticated environments, evoking a period of cultural and architectural magnificence that saw in the triangle formed by Holland, New Amsterdam (the current New York) and Great Britain (King William III of England was Dutch) its highest expression.

DID YOU KNOW THAT...

The painting, purchased by Isabella Stewart Gardner for her private collection, was stolen, along with other artworks, in March 1990 and is considered the most precious painting among those currently missing, with an estimated value of more than 200 million dollars. The FBI has managed to trace some movements of the stolen property, although attempts to recover the work have so far proved unsuccessful. Gardner's home, which has become an important museum in Boston, in accordance with the testamentary dispositions to leave everything unchanged, today displays only the empty frames in the room of stolen paintings.

CONCERT s'inspire des damiers et des compositions géométriques en noir et blanc typiques des sols des maisons hollandaises les plus prestigieuses du XVIIème siècle. Jan Vermeer a été l'artiste qui a su le mieux mettre en valeur ces ambiances en reproduisant dans ses tableaux des scènes de la vie quotidienne qui ont la caractéristique commune des sols en marbre blanc de Carrare et en noir typique des pierres flamandes dites pierres bleues. Parmi ces œuvres, nous trouvons The Concert, une belle peinture à laquelle nous nous référons avec cette collection, en développant un projet de formats modulaires, de mosaïques et de pièces spéciales pour décorer des ambiances modernes, tout en rappelant une période passée de richesse culturelle et architecturale qui a trouvé sa plus haute expression dans le triangle formé par la Hollande, la ville de New Amsterdam (maintenant New York) et la Grande-Bretagne (le roi Guillaume III d'Angleterre était néerlandais).

LE SAVIEZ-VOUS ...

Le tableau, acheté par Isabella Stewart Gardner pour sa collection privée, a été volé, ainsi que d'autres œuvres d'art, en mars 1990 et est considéré comme le tableau le plus précieux parmi ceux qui manquent actuellement, avec une valeur estimée à plus de 200 millions de dollars. Le FBI a pu retracer certains mouvements des biens volés, mais les tentatives pour récupérer l'œuvre se sont jusqu'à présent révélées infructueuses. La maison de Madame Gardner, qui est devenue un important musée de Boston, selon les dispositions du testament, pour que tout reste inchangé, encore aujourd'hui montre les seuls cadres vides dans les salles des peintures volées.

CONCERT ist inspiriert von den Schachbrettern und geometrischen Schwarz-Weiss-Kompositionen, die typisch für die Fussböden der holländischen Häuser des 16. Jahrhunderts sind. Jan Vermeer war der Künstler, der es am besten verstanden hat, diese Räume aufzuwerten, indem er in seinen Gemälden Szenen des täglichen Lebens darstellte, die alle von den weissen Carrara-Marmor-Fussböden und dem typischen Schwarz der flämischen Blustone-Fussböden angehäuft sind. Zu diesen Werken gehört The Concert, ein wertvolles Gemälde, auf das wir in dieser Sammlung verweisen, indem wir ein Projekt von modularen Formaten, Mosaiken und Spezialteilen für die Einrichtung von trendigen Räumen entwickelt haben, das an eine Zeit des kulturellen und architektonischen Glanzes erinnert, den er im Dreieck zwischen Holland, New Amsterdam (heute New York) und Grossbritannien (Wilhelm III von England war Niederländer) seinen höchsten Ausdruck.

DU WUSSTEST, DASS ...

Das Gemälde, das Isabella Stewart Gardner für ihre Privatsammlung erwarb, wurde zusammen mit anderen Kunstwerken im März 1990 gestohlen und gilt mit einem geschätzten Wert von über 200 Millionen Dollar als das wertvollste der derzeit verstreuten Gemälde. Das FBI konnte einige Bewegungen des gestohlenen Eigentums zurückverfolgen, aber bisher waren Versuche, die Arbeit zurückzugewinnen, erfolglos. Das Haus der Gardner, das zu einem wichtigen Museum in Boston geworden ist, liess laut Testament alles unverändert und zeigt noch heute in den Räumen der gestohlenen Gemälde die einzigen leeren Rahmen.

3D Shaped Technology è una nuova lavorazione digitale che si inserisce nel processo produttivo per conferire il massimo realismo ai prodotti ceramici, attraverso un procedimento superficiale che ne esalta la conformazione preservando le caratteristiche di robustezza, durevolezza e facilità di pulizia tipiche del gres porcellanato.

Coniugando visione e tatto in una realizzazione iperrealistica senza vincoli né limiti, la tecnologia 3D Shaped rompe gli schemi del concetto tradizionale di materia ceramica che, da una visione bidimensionale, passa a una realizzazione tridimensionale dove ogni dettaglio prende forma, colore e struttura.

Novità e avanguardia sono quanto caratterizza l'esclusiva 3D Shaped Technology che ha portato alla ribalta un'innovazione che ha cambiato radicalmente il concetto di superficie ceramica.

3D Shaped Technology is a new digital process that is inserted in the production process to give maximum realism to ceramic products, through a surface forming process that enhances its conformation while preserving the characteristics of strength, durability and ease of cleaning typical of porcelain stoneware. Combining vision and touch in a hyper-realistic realization without constraints or limits, 3D Shaped technology breaks the rules of the traditional concept of ceramic material which, from a two-dimensional vision, passes to a three-dimensional realization where every detail takes shape, colour and structure.

Development to find ever new technologies, able to offer all vanguard for the main international markets.
